EMPOWERING WOMEN & DEVELOPING FUTURE LEADERS

A statistical look at the current status of women in accounting

From visibility to advocacy, Mary explores everything from the barriers facing women in our industry, to why the statistical needle isn't moving. Hear her views on how to better advance, develop and retain women in leadership roles. And, discuss with Mary, the importance of language in the workplace and how concepts such as unconscious bias, and adverse impact vs. discrimination, play out in an "even playing field".

This is an opportunity to discover proven solutions for both organizations and individuals, at what promises to be a very insightful session you shouldn't miss.
